

NSR- Water Means Life-Somalia

For your information

Lions International President Fabricio Oliveira visited Sweden and the MD101 Governors' Council Meeting in Stockholm on November 2-4, 2024. The president was interested to learn about our international projects and the WML-Somalia project board had a 40 minute information about the Swedish project as well as the coming NSR-WML-Somalia project. The president was quite impressed by our work so far and our plans for the NSR project, to provide clean water to people on the African continent. The president assured us of LCIF grants for 2025-2027.
